Listen up.... Have you planned a Big Bash and want to listen to your own music playlist or use our TV for your own photos

TV Instructions

- 1) Buy a USB stick, one which does not need a code to use
- 2) Create a file name on the stick that's easily findable (eg name it: 40th birthday, baby shower etc..)
- 3) Save all photos into this file - photos must be in '.JPG' or '.JPEG' format
- 4) Check the photos are saved as landscape (important!)
- 5) If you would like to come in before your event to make sure the USB works and the photos/video are in the correct format, then please do so. Just let us know when you would like to come in so that we can help.

Sound System

We have a Spotify account which you can use for music at your event. To have music in the Garden Bar, all you need to do is make a playlist on your Spotify account and make it public (important!) Once it's public, you'll be able to find your playlist from our account. Simply find the playlist and click play. If you have any trouble, you can always log into your account on our device to find your playlist (but make sure to log back out again!)

If you haven't made a playlist, you have the freedom to select a music genre of your choice!
